Intro Text h2 (55px ArchivoBlack color:grey #3b3b3b)

Hi, my name is

Main Heading h1 (85px ArchivoBlack color:black #323232)

Chris Sutcliffe.

Front-end Web Developer.

Subhead (20px ArchivoBlack color:grey #3b3b3b)

I create responsive websites that concentrate on the users' experience by providing intuitive navigation and a clear indication of the purpose and benefits of the site.

Projects

Project One

Heading 3 (35px ArchivoBlack color:black #323232)

A Product Landing Page

Heading 4 (24px ArchivoBlack Color:black #323232)

Technologies: HTML, CSS

Heading 4 (24px ArchivoBlack Color:white #F5F6F7)

freeCodeCamp

Main Text (22px Lora Line-height: 1.6 Color:white #F5F6F7)

Requirements: Build a Product Landing Page that includes a form element that requires a valid email address as input, includes an embedded product video, uses at least one media query, and utilises CSS Flexbox at least once.

Method: I created a responsive design utilising CSS Flexbox as a flexible layout tool to distribute and align items in the menu, footer, about, and deals sections. I implemented a media query for correct display on smaller screens. The design is my own, as is the artwork, and it features my guitars.

Project Two

Heading 3 (35px ArchivoBlack color:black #323232)

A Technical Document

Heading 4 (24px ArchivoBlack Color:black #323232)

Technologies: HTML, CSS

Heading 4 (24px ArchivoBlack Color:white #F5F6F7)

freeCodeCamp

Main Text (22px Lora Line-height: 1.6 Color:white #F5F6F7)

Requirements: Build a Technical Document that allows for navigation between document sections; the navbar must always be visible; the document must contain code examples together with explanations; and the document must contain at least one media query.

Method: I created a document based on my GitHub Wiki Page (<https://github.com/testpilotuk/myVoidLinuxBup/wiki>) and used CSS positioning to provide an 'always available' navigation pane. I also added a media query to allow for smooth scrolling.

Project Three

Heading 3 (35px ArchivoBlack color:black #323232)

A Tribute Page

Heading 4 (24px ArchivoBlack Color:black #323232)

Technologies: HTML, CSS

Heading 4 (24px ArchivoBlack Color:white #F5F6F7)

freeCodeCamp

Main Text (22px Lora Line-height: 1.6 Color:white #F5F6F7)

Requirements: Build a Tribute Page with at least one image that includes an image caption and resizes responsively. Provide an external link that opens in a new tab for additional information on the subject.

Method: I used a combination of HTML span and list elements together with CSS Flexbox to create a responsive layout and a uniform discography design.

Action buttons (160x65 radius:10 stroke:2 color:white #F5F6F7 background-color:green #478361)

Project Four

Heading 3 (35px ArchivoBlack color:black #323232)

A Survey Form

Heading 4 (24px ArchivoBlack Color:black #323232)

Technologies: HTML, CSS

Heading 4 (24px ArchivoBlack Color:white #F5F6F7)

freeCodeCamp

Main Text (22px Lora Line-height: 1.6 Color:white #F5F6F7)

Requirements: Build a Survey Form to collect user input, including a name, a valid email address, and a valid integer number. The page should provide an error message for incorrect inputs.

Additionally, the form should include at least one drop-down element, two radio buttons, a series of checkbox elements, a textarea, and a submit button.

Method: I chose a subject that was familiar to me and created a form, leveraging valid HTML form elements to create the functionality and CSS to describe the page presentation.

ABOUT Section

Heading 2 (55px ArchivoBlack color:black #323232)

about.

Heading 3 (35px ArchivoBlack color:black #323232)

I'm Chris Sutcliffe and a front-end web developer based in Lousã, Portugal.

Main Text (22px Lora Line-height: 1.6 Color:white #F5F6F7)

I am a developer who is an ex-pat from the UK with a love of learning and creating things combined with the self-discipline to be task- and customer-focused which I attribute to my years of military service.

I like learning new things and solving challenges, and my enthusiasm only grows the more I learn.

Technologies I have learned so far on my web development path:

Icons (100 x 100 color)

HTML5, CSS3, and GIT (Code versioning).
